DESCRIPTORS *College Students; Comparative Statistics; Educational Finance; Enrollment; *Federal Aid; Federal Programs; Grants; Higher Education; Postsecondary Education; State Aid; *State Programs; *Student Financial Aid; *Student Loan Programs; Work Study Programs

ABSTRACT

A limited statistical report of student aid dollars in each of the states is presented. The report covers only the following programs: Basic Education Opportunity Grant Program, Supplementary Educational Opportunity Grant Program, State Student Incentive Grant Program, College Work Study Program, The National Direct Student Loan Program, the Guaranteed Student Loan Program, and the Federally Insured Student Loan Program. Information is also included on state student grant programs, state appropriations for higher education, and Fall 1978 enrollment in each state. Federal programs outside the Office of Education and federal programs available on a categorical basis are not included. The only reported state programs are those providing need-based grants to students. All data except those for the federal Guaranteed Student Loan Program and the Federally Insured Student Loan Program are for the 1978-1979 school year; data for those two programs are for the 1977-1978 school year. STATES AND STUDENT AID

The attached table provides a rough and rather limited report of student aid dollars in each of the states. It is limited because it only includes the following programs: Basic Education Opportunity Grant Program (BEOG)[1], Supplemental Educational Opportunity Grant Program (SEOG)[2], State Student Incentive Grant Program (SSIG)[3], College Work Study Porgram (CWS)[4], The National Direct Student Loan Program (NDSL)[5], Guaranteed Student Loan Program (GSL)[6], and the Federally Insured Student Loan Program (FISL)[7], . Information is also included on State Student Grant Programs[8], State Appropriations for Higher Education[9], and Fall 1978 enrollment[10] in each state. A number of state and federal programs which provide aid to students were left out. Federal programs not included are those outside the Office of Education and/or available on a categorical basis. Reported state programs are limited to need based grants provided to students. State provide other aid in the form of subsidized work opportunity, loans, or other than need based grants.

The table is a rough estimate and should be interpreted with care. All the names used are provisional and will change as they are edited at a later date. Special care should be taken with the GSL/FISL numbers because they are for the 1977-78 school year, <u>not</u> 1978-79 as are all the other numbers. All fiscal year 1980 estimates are based on existing distributions. When updated these amounts will change. The SEOG and CWS numbers do not include any matching funds provided by the institution. The NDSL program includes only the federal contribution and not the funds that are being reloaned by the institution. More specific constraints are presented in the footnotes.

NATIONAL TOTALS

6 and 7. The Guaranteed Student Loan data represents funds loaned under the Guarantee Loan Program and the Federally Insured Student Loan Program. In some instances, loans are made under both programs in a state.

The loan program information is based on 1977-1978 school year commitments which makes it noncomparable with the other data on the table. The loan program volume is reported to have increased sharply this year because of the modifications introduced by the Middle Income Student Assistance Act.

First, the data represents loans originated in a state. The student could take a loan out in one state and attend college in another state. Second, loans made in the summer prior to the school year would appear as part of the previous years volume. As a result of all these conditions the loan data represents only a rough approximation of loans used in a state.

Source: State Agency Loan Volumes - Commitments, March 2, 1979. State Programs Branch Bureau of Student Financial Assistance, Office of Education. FISL Loan Volume - Commitments, October 16, 1978. Bureau of Student Financial Assistance.

8. State Student Aid Grants are limited to need based grants provided students by states. Many states provide other forms of aid including work study, loans or non-need based grants.
Source: Boyd, Joseph D. and Sybil E. Francis, National Association of State Scholarship and Grant Programs 10th Annual Survey. 1978-79 Academic Year, Illinois State Scholarship Commission, Deerfield, Illinois 1979.

9. State Appropriations reported by M. M. Chambers. 1978-79 state funds appropriated for operating expenses and scholarship programs for higher education. Not included are appropriations for capital outlay or sums which clearly originated from sources other than state taxes, such as student fees. Included are appropriations for annual operating expenses even if appropriated to some other agency of the state for ultimate locations to institutions of higher education. Pre-allocated state taxes whose proceeds are dedicated to any institution of higher education are included even though the process of periodic appropriations by the legislature may be bypassed. Also included are state tax funds appropriated for scholarships and state-wide governing or coordinating boards. It does not include funds from local taxes.
